Hi George,

I know you have seen my previous email as it did not bounce. It would help me a lot if you could acknowledge it. Could you let me know if you agree or not about signing the papers. I can understand your reasons for not wanting to sign. I just want to close this and if we cannot change the list of inventors then leave it as such and move on with my other "paperwork" issues related to 3PAR patents. Give me a buzz if you prefer not to reply through email: 510-413-4990 or 650-279-4217 (Cell). If you are around we could also go for a beer.

I miss your leadership on driving software visible features on our ASICs. When you were around you were making my life much easier.

Take care,

Michel

Hi George,

How are you doing?

I hope the mood is still OK at Sun despite all the bad announcements that are in all the trade rags right now.

As you know, I have been trying to put back Jeff's name on a couple of the 3PAR patent where it was dropped by the lawyer without me noticing.

Nancy told me you wanted to get some official information about the latest round of funding. Did you get what you wanted from Adriel?

Would it be now OK for you to sign the papers that would correct the list of inventors?

Have a great weekend,

Michel
